2023 was an exciting year for the Seabrook Island Club (SIC) and 2024 is shaping up to be the same way. Our mission continues to strive to enhance the experience of Members, guests of Members and Rental guests and do it in a consistent manner. As many of you know the Club, in 2023, undertook the task of creating a Strategic Plan. With guidance from Global Golf Advisors, our members, (through surveys and focus group) management and employees we delivered the final product at the 2024 Annual Member Meeting in February. The strategic plan was “bringing balance to what Member’s value with the cost to providing those services and amenities”. Through great membership participation in the Strategic Plan three action items rose to the top of the list:

- Preserve our Beach
- Increased collaboration with SIPOA and the Town of Seabrook (TOSI)
- Identity and implement a technology solution that benefits Members and creates efficiencies in operating the Club.

First, our beach. As we all see, our beaches have experienced Modern Development wands especially in the last several months. Coastal Sciences and Engineering WSD, who has partnered with Seabrook Island for the past four years, is working directly with SIC, SIPOA and TOSI to help protect and preserve our beach, CSE presented a history of Seabrook Island’s beach and discussed some of the options we have to make sure the beach continues to exist as we know it today. Seabrook Island’s three governing entities on Seabrook Island, but represent a sea change in the culture of the Club’s Strategic Plan. Our shared vision represents a sea change in the culture of leadership on Seabrook Island. Our shared vision represents a sea change in the culture of leadership on Seabrook Island. In the accompanying piece in this issue of The Seabrooker, Club President, Lynn Lillibridge wrote that collaboration was a top priority in the Club’s Strategic Plan. Our shared vision represents a sea change in the culture of leadership on Seabrook Island.

The Board of Governors (BOG) of SIC are actively incorporating the direction from our Strategic Plan into all SIC Committees goals/ac tion steps. The goal is to make sure the BOG and Club Committees use opportunities highlighted in the Strategic Plan to continue to elevate the experience everyone has here on Seabrook Island.

THE Seabrooker

Congratulations on your new residence in Seabrook Island!

The Seabrooker will report regularly on local happenings as well as noteworthy events that other property owners and visitors may wish to enjoy.

For questions, suggestions, and comments, please email us at TheSeabrooker@gmail.com

Thank you for choosing Seabrook Island, the finest place on earth.

Robert Short-Term Rental CAPs are not only the arrival of a capable leader but also the departure of one of transformative significance. As Ben assumes his new position as the President and CEO of the Seabrook Island Real Estate, symbolizing a homecoming and a new chapter in his professional career, his vision for Seabrook Island fully intertwines with the very essence of our community. As Ben takes the helm of this prominent organization, he not only brings with him a wealth of experience and knowledge but also a profound understanding of the island’s history, culture, and unique character.

Ben’s connection to Seabrook Island is deeply rooted, having grown up in the area and attended the University of South Carolina. His familiarity with the island’s landscape, its people, and its traditions is unparalleled. This background allows him to approach the role with a fresh perspective, ensuring that the island’s legacy is preserved while adapting to the evolving needs of its residents and visitors.

Throughout his career, Ben has demonstrated exemplary leadership and a strategic approach to community development. Under his leadership, Seabrook Island Real Estate has become a pillar of the local community, providing a range of services that cater to the diverse needs of its residents. From real estate listings and sales to property management and community events, Ben’s commitment to excellence is evident in every aspect of the organization.

In the past, the island has been fortunate to have leaders who have not only guided its growth but also contributed to its rich history. Ben’s appointment is a testament to the island’s tradition of excellence and the ability to attract and retain the best and brightest individuals. He is a true asset to Seabrook Island, and his leadership is bound to bring new opportunities and advancements to the island.

As we look forward to the future, we are confident that Ben’s leadership will continue to strengthen the island’s position as a premier destination for those who cherish its beauty, its history, and its community. With his vision and dedication, Seabrook Island is poised for continued success and prosperity.

The Seabrooker

Dem the kitchen, Go tour the dream college. We can help you get to those moments that matter. Katherine C. Morosani, CFCA, CPA

Ben’s connection to Seabrook Island goes beyond his personal and professional background. He is a native of the area, having grown up in the same community where he now serves as the President and CEO of Seabrook Island Real Estate. This intimate knowledge of the island’s history, culture, and unique character is evident in his approach to community development.

Ben’s leadership is characterized by a strategic and thoughtful approach, ensuring that his decisions are aligned with the island’s long-term vision. His commitment to excellence is reflected in the high standards set for real estate listings, property management, and community events. Under his guidance, Seabrook Island Real Estate has become a trusted partner, providing comprehensive services that cater to the diverse needs of its residents and visitors.

Ben’s commitment to the island is not only demonstrated through his professional achievements but also through his personal involvement in community activities. He is actively engaged in various initiatives that promote the island’s heritage and culture, fostering a sense of pride and unity among its residents and visitors.

As we look forward to the future, we are confident that Ben’s leadership will continue to strengthen the island’s position as a premier destination. With his vision and dedication, Seabrook Island is poised for continued success and prosperity. His appointment is a testament to the island’s tradition of excellence and the ability to attract and retain the best and brightest individuals. He is a true asset to Seabrook Island, and his leadership is bound to bring new opportunities and advancements.

"First Aid Essentials: Snickers Bars"}

"First Aid Essentials: Snickers Bars"
Basketmaker sews other cultures into sweetgrass tradition

By Herb Frazer

The Lowcountry is a place where many cultures have collided and mixed over time. Nakia Wigfall is a testament to that. Through her work, she connects people from different backgrounds to create something unique and beautiful. "I love working with people from all around the world," Wigfall said. "It's amazing to see how we can all come together and create something that is truly unique and beautiful."

Wigfall's work is not just about creating baskets, but about telling a story. "Each basket has a story," she said. "It's a way to connect people and share their culture."

Wigfall's work has taken her around the world, from Senegal to the Bahamas. "It's been a incredible journey," she said. "I've met so many amazing people along the way, and each one has brought something special to the table."

Her work has been recognized in the African American Museum, and she has been invited to teach workshops in different countries. "It's been a dream come true," she said. "I never could have imagined what this journey would bring."
A LOOK AT RISK FACTORS FOR DEMENTIA

Steve Penhusk, MD

The older average age of haystack-
ning may result in dementia being
more common for Sudokus than for
those of other communities. A survey
very large thin year unique study
appeared in JAMA Neurology by
the American Medical Association
looked at risk factors in people aged 85
the study also also included in this paper.
The study looked at
200 in the UK one
It found 32 risk factors and assessed
those to the 23 ones.
Some of those three low risk factors
and social interaction not only contribute to
improved physical health, well being
and longevity but may also safe guard
against dementia.

And for dementia, the modifiable lifestyle
factors that can be altered.

Common risk factors can be altered.
Those include social interaction and peer
networking. But not all social factors can be
controlled. The following factors can be
influenced: smoking, alcohol consumption in
moderation, not chewing tobacco, and not
snuff.

365,000 participants in the UK Biobank.
Effect of $26,500 annually for the drug and an
impressive $98,500 for the injection option.
Monoclonal antibodies are immuno-
therapy, or a combination of treatments.
Treatment depends on cell type, extent
of spread, and specific treatment, but the
domino effects of the patient.
One of the cancers that occur in the
mouth, throat, and nose and re-
dominate include development of mucositis
and reduced if treated promptly. After a
reduction in the size of the tumor. The
administration of the drug is critical.

The South is booming, beating out
the West as the fastest-growing area again
in the past year.

The Atlanta core metro area, including
South, had the biggest increase in

Our Majestic Wading Birds

Art by Gina Sanders

The first time you see one of our beautiful wading birds on Seabrook Island, you can’t help but stop and stare. Their size alone catches your eye. Whether wading by a lagoon or feeding in one of our many ponds and lagoons, these birds are captivating.

Social media abounds with beautiful photos of egrets, herons, ibises, and storks. And as you really want to draw attention, post a photo of a Snowy Egret.

The mild, stately Snowy Egret is one of the most elegant of the heron family, and easy to identify with their white plumage, black heads and legs, and yellow feet. They are often seen wading through the water, wiggling their toes, and hunting for food, which makes up a staple part of their diet. Skilled waders, they develop long, strong legs that allow them to move gracefully and quietly across the surface of the water and even walk through swamps with ease.

Greater than others, the Great Egret is a sight to behold in many wetland areas. It kans its tail fans out in the herons is on the move, making them a beautiful addition to the landscape. Beautifully colored and graceful, they become more common and more mobile in the breeding season. A pair of the yellow and black plumage is the Great Egret, renowned for its graceful movements and elegant curves.

In breeding season, they are dressed in their most colorful attire. A white neck, a greenish-black head, a greenish-black neck, and white plumage make up their breeding plumage. With their white plumage, the Great Egret is a stunning sight, with its clean, crisp lines and delicate movements.

Adult Roseate Spoonbills are a sight to behold, with their large, elegant bills and distinctive beak shape. They are a beautiful blend of deep maroon, emerald, bronze and black, with their long, curved bills and tall, elegant necks.

They are non-territorial, feeding in large flocks along the coast. A beautiful blend of deep maroon, emerald, bronze and black, these birds are easy to spot in ponds and lagoons, thanks to their high-contrast coloration. A Roseate Spoonbill has a distinctive, prehistoric appearance. With white bodies and black flight feathers and tail, they are excellent fliers, often seen soaring on ocean breezes.

The mid-sized Snowy Egret is one of the most elegant of the heron family, easy to identify with their white plumage and black heads and legs. They can be found in a wide variety of wetland areas, from marshes to lagoons. Beautifully colored and graceful, they become more common and more mobile in the breeding season. A pair of the yellow and black plumage is the Snowy Egret, renowned for its graceful movements and elegant curves.

In breeding season, they are dressed in their most colorful attire. A white neck, a greenish-black head, a greenish-black neck, and white plumage make up their breeding plumage. With their white plumage, the Snowy Egret is a stunning sight, with its clean, crisp lines and delicate movements.

The question everyone wants to know is whether Roseate Spoonbills will one day be common in the Lowcountry. It’s a possibility, but the future is uncertain. The species is threatened by habitat loss and climate change, and its conservation status is under threat. Whether or not Roseate Spoonbills will become a regular sight in the Lowcountry remains to be seen.

In conclusion, our wading birds are a beautiful addition to the landscape, a testament to the beauty of nature, and a source of inspiration for our resident artists. They give us one more reason to proudly call the lowcountry and Seabrook Island our home.

“Time to Put in the Minnow Traps”

April 1780: A British Victory at Monck’s Corner

Cuts Their Nose in SC History

April 14th, Tarleton’s men charged down the main Patriot camp. The accented man fell into the surrounding swamps, leaving four horses as they tried to escape capture. A second British charge attacked the union at Ridgeville, also impressing the Pennsylvanians with their numbers. The British captured 185 horses and 30 wagons loaded with ammunition, supplies, and commercial goods. The Continental Army was not prepared to provide mounts for its entire cavalry, and the British captured many Patriot troops as they marched. The victory at Monck’s Corner, also known as the Battle of Biggin Bridge, gave the British control of the west bank of the Ashley River, allowing them to seal off Charleston and the city. On April 12, Clinton ordered Tarleton to reclaim Charleston, and the British captured the plantation of Sir Banastre Tarleton. Clinton also allowed them to seal off Charleston for another month, giving the British control of the west bank of the Ashley River. The victory at Monck’s Corner was a thorough victory for the British, who lost only one man dead in the battle. The British captured 185 horses and 30 wagons loaded with ammunition, supplies, and commercial goods. Tarleton was able to provide mounts for his entire cavalry, and the British captured many Patriot troops as they marched. Nothing compares to crafting excellence with a network that elevates you.  

Combing her knowledge of coastal real estate with the global reach of Sotheby’s International Realty, Michelle Almeida Wiedmuth delivers unparalleled results to homeowners and prospective buyers on Seabrook and Kiawah Islands. With years of residency, a skilled team of subcontractors and tradeworkers who protect a proven track record of building homes on both islands, and a comprehensive understanding of the real estate process, Michelle brings invaluable insight to every transaction.
The Ocean Course at Kiawah Island will host 2031 PGA Championship

Spring has sprung, and we are officially in season for strawberries. According to the South Carolina Department of Agriculture, April through June is strawberry picking time in the Palmetto state. Here are a few places around Charleston to pick fresh strawberries. Pro tip: Hours sometimes vary, double check on social media pages.

1. Woodbury Farms Strawberries at Marymound Market, 1035 N. Gum St., Summerville | Visit Summerville Wednesday-Sunday, 10 a.m.-5 p.m.
2. Boone Hall Farms, 2434 N. Hwy. 17, Mount Pleasant | Boone Hall is known for its local produce; try a day of strawberry picking Monday-Saturday, 9 a.m.-5 p.m.
3. Bugby Plantation, 2434 N. Hwy. 17, Mount Pleasant | Boone Hall is also known for its strawberries in spring. Give it a try Saturday, 10 a.m.-5 p.m.
4. Ambrose Family Farm, 2349 Black Pond Ln., Wadmalaw Island | Pick your perfectly grown strawberries at this 200-acre farm. Tuesday-Sunday, 10 a.m.-5 p.m.
5. 6- Ambrose Family Farm
6. 5- Charpia Farms

PICKIN' AROUND

Story by Tim Renaud

Picking agents seeking Charleston extras for “The Righteous Gemstones” season 4

Popular HBO series “The Righteous Gemstones” is gearing up to begin filming its fourth season, and you have an opportunity to be part of the show. Casting agents are looking for entries to appear in the Charleston television show starring Diane McBride, John Goodman, Adam Driver and Bill Paterson.

Casting agents should submit the following information to be considered:

1. Current photos—one up close and one full length
2. Name, citizenship number, age, city/state where you reside
3. Height, weight, complete clothing sizes, shoe size
4. Description of visible tattoos and piercings
5. Color, make, model, year of vehicle
6. Past experience with promotions or television; please list all

Additional eligibility requirements:

• Must be 18 or older
• Must reside in Charleston County
• Have no criminal record
• Must be able to work on-call

Submit your application to trg4extras@gmail.com. Include photos, driver’s license and social security number.

Charleston International Airport Receives Funding for Expansion Projects

Charleston International Airport will roll out expansion projects in several phases.

Phase one:
• 23 additional overnight spaces for aircraft
• 20 new gates

Phase two:
• 23 additional spaces

Phase three:
• Expansion of ticketing hall

This investment will allow the Charleston Airport to expand its service, accommodate development, benefit with more direct flights to and from other international airports, and increase economic benefits. Charleston County Aviation Authority shared its long-term plan to expand Charleston International Airport.

Director of Economic Development, City of Charleston, and the Charleston County Aviation Authority.

Colin Hocking — “Snap Shot to Pro Shot: Steps to Raise Your Wildlife Photography Game”

Join professional wildlife photographer and photo tour leader Colin Hocking as he shares the steps, settings, and techniques it takes to capture those “once in a lifetime” moments that we might otherwise miss.

Colin is a Licensee of the UK Royal Photographic Society, a Coastal Master Naturalist, and a member of the Professional Photographers of America and the Carolinas Nature Photography Association. He has been a freelance photographer for over 20 years and leads successful photo tours all over the Lowcountry. His combination of technical photography skills and his naturalist training allows him to approach nature photography with a hybrid of artistic and scientific perspectives.

He’ll teach us the exact methods he uses when he shoots. Those tools will help us stand at the top of our game. You will learn how to avoid getting photos that are too bright, dark, or blurred, and he’ll also help us understand some of the key elements to incorporate into our imagery to make those photos stand out from the rest!

There will be valuable takeaways to help photographers of all levels improve their craft. All are welcome.
