THE CHRISTMAS SPIRIT ON SEABROOK ISLAND

Adopt-a-Family and the Season of Giving

“Neither sleet nor snow nor rain nor heat nor gloom of night stays these couriers from the swift completion of their appointed rounds.”

And so it was with 28 volunteers from Holy Spirit Catholic Church as they began their appointed rounds on Saturday morning, December 15 to deliver much needed grocery items to those in need on Johns Island. That morning finished off a week of torrential rain that flooded much of the island.

The delivery was the culmination of the Adopt-a-Family Christmas program that saw close to 100 parishioners volunteer their time over three days to unload the goods from an 18-wheeler Food Lion truck, separate the boxed items into individual groups and finally “load up” six grocery bags with those items. Over 125 families on Johns Island would benefit from the Adopt-a-Family effort.

The groceries were graciously given to Holy Spirit at cost by Food Lion. Seven Food Lion employees also lent a huge hand in helping to unload.

Adopt-a-Family has been in operation at Holy Spirit since 1995 when the late Margaret Kerr initiated the effort. This year the guidance and oversight of Marie D’Ambrosio, Bill Phophater and John Lombardo were instrumental to the program’s success.

On Sunday, December 2, the Island Choraliers and Coastal Carolina Singers joined forces to perform a holiday concert before a “full house” at Holy Spirit Church. It was the 19th consecutive Christmas program for the Choraliers and with the fifty member Coastal Singers adding their wonderful performance, probably the best.

Adding an instrumental touch to the Christmas music was the Steve Joy Project, four piece jazz ensemble with Steve on the saxophone, Noah Jesus guitar, Danny Slye bass and Stewart Levine on the drums.

The Coastal Carolina Singers under the direction of Van Malcolm and the Choraliers with Nat Malcolm directing, treated the enthusiastic audience to a full complement of holiday music including a Ray Charles arrangement of “Jingle Bells”, “Hannukah Wish” and “Silent Night”.

The Island Choraliers and Coastal Carolina Singers

Happy New Year from The Seabrooker
Publisher, Editor and all the many Volunteers that make it happen!
CAP’N SAM EDISTO

Dear Cap’n Sam,

As Seabrooker volunteers with a common objective, we are committed to securing the facts and reporting

The entry deadline for all items is the 15th of the month. Please limit Cap’n Sam’s letters regularly on Island happenings, as well as newsworthy events that affect property owners and residents.

FOR ADVERTISING OPPORTUNITIES, PLEASE CONTACT Teri B. Lash • 843.747.7767 • TLash@BernsteinLash.com

To the Seabrooker volunteers,

I was delighted to see advertising photos used in a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago, especially such a fresh, simple ad as that graced your pages a few months ago.

SEADOGS

Call to Order

President Debby Lehm found the meeting to order and read the agenda for the night's discussions. In addition to Villagers the following guests were present: SVPID Vice President Key lmran, SVPID Nonprofit Committee Chair Bill Jane, Nominate Committee member Cindy Brown and two candidates for the 2019 SVPID Board of Direc
ture and two members of the North and West Seabrook clubs.

Meet and Hear from Candidates

Greg Jackson and Cindy Brown, two of the 2019 SVPID Board candidates introduced themselves.

Four of the six candidates running for the 2019 SVPID Director position in 2019 were present. Each candidate was given up to 10 minutes to intro
duce themselves including their qualifica
tions and their focus as a SVPID Director. Each candidate provided an overview of their qualifications and what they bring to the meeting.

The second part of the experiment is to see if the voters who did not drink the wine with the higher price paid will rate the wine more favorably than the voters who did drink the wine.

The conclusion that is drawn is that taste is "totally subjective" and cause we deem them higher quality.

Its effect holds true whether we are looking for a wine to drink, or for a wine to serve the property of the Island for all members of the property. The idea that "wine experts" (a group that is not always right. It's the kind of assumption that flavors taste is better because the wine is higher quality.

This phenomenon is why wineries like the Barolo wine make their wines using a variety of grapes and their focus on a SVPID Director. Each candidate provided an overview of their qualifications and what they bring to the meeting. If you are happy that your wine is not being stored properly or not being used for its intended purpose.

BON VOYAGE TIM!

Tim McWelmet and his parents, Jim and Bob, along with family, numerous friends and neighbors celebrated Tim’s move to St. Petersburg, Florida, with a bon voyage party at the Lake House. This will be joining his sister and her husband in his new Florida home.

Many Seabrookers know Tim from the many hours working at the Harris Teeter (and Pigle) Wiggly before that in Pebblefield Village. His friendly greetings and “Go Buckeyes” will be missed. Good luck Tim and Godspeed.

Hoosiers Celebrate 202nd Anniversary of Indiana’s Admission to the Union

The 4th Annual Seabrook Island Historical Society celebrated the 202nd anniversary of Indiana’s admission to the union. On December 11, 1816, Indiana was admitted to the union and 25 Hoosiers from the state of Indiana attended the U.S. Capitol to celebrate the occasion. The Hoosiers were attended to in a Victory Community Center located in渔业村，这是一次盛大的活动。这次活动吸引了许多来自印第安纳州的游客和当地居民。

One of the real joys of the Holiday Season is the opportunity to say “Thank You” and to wish you the very best for the New Year.

Genealogy Fair 2019

Find Your Past - Preserve Your Family History

The 2019 Green Space Gala GROWING THE GREEN promises to be a fabulous evening of casino games (think Craps, Roulette and Black Jack with professionals running the games), including great raffle prizes! You can enjoy the atmosphere of a comforting Irish Pub with our very own Bob Becker playing Irish tunes on his guitar, or you may choose to dance the night away with a DJ who will provide a variety of great music. Unique food stations and delicious desserts will be prepared by the Club’s talented chefs and staff. Be prepared to enjoy the many gala surprises in store for you!

Tickets are on sale NOW at $100 per person which include food, wine, beer and soft drinks. You may go to sign-up.com to download a reservation form. Forms, along with your checks, may be dropped off at the special “Gala” mailbox at 3212 Seabrook Island Road, c/o Gorskis. Reservations will also be sold at the Lake House on Saturday, January 5, or Saturday January 12, from 10 a.m. until noon. There will be no assigned seating at the Gala.

The Seabrook Island Green Space Conservancy is a tax-exempt organization, run completely by volunteers. Our yearly gala, along with local acquisitions by generous donors and other monetary gifts, helps us accomplish our goals.

“Our mission is to preserve the natural environment on Seabrook Island through acquisition of land and land easements, through education and through advocacy of conservation issues.”

We look forward to seeing you at the Gala where we are GROWING THE GREEN.
Little Armored One

Armadillos are armadillos. Most of us think of armadillos as armadillos, all of which can be found in Central and South America. Only one species, the nine-banded armadillo (Dasypus novemcinctus), has been found in the United States. This species can be found in one state: South Carolina and Florida. It is protected that the six-banded and six-banded armadillos are considered to be domesticated armadillos (Dasypus novemcinctus)

Armadillos are omnivores. Most of their diet consists of insects such as ants (especially their larva), beetles, termites, and cockroaches. They also eat spiders, and some species will eat small mammals and birds. Armadillo meat is often referred to as “possum on the half-shell.”

Armadillos are very strong legs and large, sharp front teeth which function as “curb feelers” and help navigate the ground’s surface. They also have excellent senses of smell and hearing.

In response to a threat, most armadillos simply dig a hole quickly and become implanted. After a four-month gestation period, the pups are born. The pups mature quickly and become independent and capable of reproducing within a year. During periods of environmental stress, females can delay their litter until the following year. Normally, females will produce one litter per year. During periods of environmental stress, females can delay their litter until the following year. Normally, females will produce one litter per year.

Armadillos are good runners and excellent swimmers. They can cross obstacles with air and floating across or through a stream. Armadillos are good runners and excellent swimmers. They can cross obstacles with air and floating across or through a stream.

The Gifford Museum of Art, home to the fore-
mastery of the most distinguished artists and sculptors in the his-
tory of Charleston, will exhibit the works of Ogden M. Pierson, life and work as a world-renowned artist.

Pierson was known for capturing moments of daily life in his paintings. He portrayed scenes from the city, rural areas, and even nature. These artistic impressions not only captured the beauty of the land and cityscape, but also the experiences of the people who lived there.

Pierson was dedicated to preserving the beauty of nature, especially the marshes, ocean and wildlife, which became a driving force in his art. His works frequently depicted scenes of fishing, wildlife, and landscapes, capturing the essence of the natural environment.

Pierson’s art was not just a reflection of his love for art, but also a dedication to preserving the beauty of the land. His paintings serve as a testament to his commitment to capturing the beauty of nature in all its forms.

In these paintings, Pierson aimed to bring viewers closer to nature. His works were meant to transport the viewer to a world where beauty and tranquility were apparent. His art was a way of sharing his love for the natural world and the importance of preserving it.

Pierson’s artistic legacy continues to inspire and influence contemporary artists today. His work serves as a reminder of the beauty and wonder that nature offers, encouraging viewers to appreciate and protect our natural resources.

The Gifford Museum of Art is proud to present this exhibition, which celebrates the life and work of Ogden M. Pierson, an artist whose dedication to art and nature will continue to inspire generations to come.

The exhibition will be on display from January 18, 2019, to May 12, 2019. Visitors are encouraged to visit the museum to experience the beauty and artistry of Pierson’s work firsthand.

Tickets are available at Charleston Stage’s Box Office, located at 2300 Main Street, Suite 102, or online at charlestonstage.com. For more information, please call 843-577-3736.
