The Seabrook Island Club will host Seabrook’s annual Independence Day Celebration on Sunday, July 3. The fireworks display is sponsored by the Town of Seabrook Island. The primary spectator area for the fireworks will be the Club’s driving range, located behind the Clubhouse at 3771 Seabrook Island Road. The range will open at 4 PM, with music, food, and beverage sales beginning at 6 PM. The fireworks display with patriotic music will begin shortly after 9 PM.

Food Stations:
- All American Station
- Hot dogs
- Hamburgers/ Cheeseburgers
- Smoke House Station
- Pulled Pork Sandwiches
- Chicken Wings
- Chilled Seafood Station
- Shrimp
- Cold Crab Dip and Crackers
- Chilled Seafood Station
- Shrimp
- Cold Crab Dip and Crackers

Attendees are asked to please take note of the following:
- There will be limited to no parking available at the Club. Attendees are asked to walk or drive to the event or take a shuttle from the Lake House (see below for shuttle info).
- Seabrook Island Road will be closed to traffic in front of the Clubhouse beginning at 5 PM. Motorists are advised to use High Hammock Road as a bypass route.
- The ‘fallout area’ on the golf course will be closed to pedestrians beginning at 4 PM and will remain closed until 30 minutes after the fireworks show. For your own safety, please obey all signage and instructions from security personnel within this restricted area.
- No grills or open flames will be permitted on Club property.
- No dogs (except service animals) will be permitted on Club property.
- Due to South Carolina ABC regulations, outside alcoholic beverages will not be permitted.

Trolley Shuttle "Loop" Service:
- A 37-passenger trolley will be running on a continuous shuttle loop.
- Park for the shuttle at the Lake House (2319 Seabrook Island Road).
- First Pick Up at the Lake House is at 4:30 PM.
- The shuttle will drop off in front of the Beach Club.
- Each loop is expected to take about 25 minutes.
- Last Pick Up at the Island House will be at 10:15 PM with drop off at Lake House at 10:30 PM.

Rain Date:
In the event of inclement weather, the rain date will be Tuesday, July 5, with Rotie Salley Band performing.

Since our last update, the project team presented the Recommended Preferred Alternative at the public hearing events in the fall of 2021. Between August 18, 2021 and October 15, 2021, 967 people viewed the virtual public hearing room and 311 people attended the three in-person meetings held in the project study area on Johns Island, James Island, and West Ashley. A total of 2,618 comments were received during the comment period from 2,421 individuals. The top comments or concerns received during the public comment period were related to the following themes:

- Traffic
- Funding/Costs
- Environment
- Growth/Development
- Innovative Opportunities
- Resiliency
- Coastal Health
- Orca
- Fairy Tales
- Out of Highway
- Intrasound
- Concerns
- Hurricanes
- Stormwater
- Wetlands
- Drainage
- Stormwater (see below for more info on these themes or concerns received during the comment period.)

An important component of the tournament has been a tradition of philanthropy to benefit local charitable organizations. This year’s committee has selected Sea Island Hunger Awareness and Barrier Island Free Medical Clinic as the recipients. The committee recognizes there is an incredible need to fight hunger and provide free medical care to residents on Johns and Wadmalaw Islands. Each of these organizations do outstanding work in providing food and health care to the community,” stated Karen Petrcevich, Tournament Chair.

Seabrook Island Announces Annual Alan Fleming Senior Open
Clay State Champion Tennis Tournament for October 5-9

The Seabrook Island Racquet Club has announced the annual Alan Fleming Senior Open Clay State Championship Tennis Tournament to be held on Seabrook Island from October 5-9, 2022. The event has grown into a premier tournament in the Southeast and nationally, attracting more than 250 senior tennis players from as many as 30 states.

The tournament has become a key event for the Charleston region and beyond and the US Tennis Association (USTA) and has awarded the event Level 1 and 3 Status. The tournament offers competition for men and women ages 30 and up in doubles, singles, and mixed doubles events. Registration opens in August.

The tournament offers opportunities for local businesses to be sponsors and promote their services to the community. Several sponsorship opportunities are available. For additional information visit alanflemingtournament.net.
In 1992, Sheridan married Karen Silver Chief Dog of the North. He is renowned for his compassionate and caring nature as the phrase “too stupid to pour water on fire” suggests. However, the phrase is likely a playful exaggeration, as Sheridan was known for his intelligence and wisdom.

Before relocating to Waco where the death of Sheridan’s father marked his beginning, he spent most of his days fishing and being his favorite recreational activity. His passion for fishing extended beyond personal enjoyment; he was known to promote and support fishing-related initiatives in his community.

Regarding the report’s findings, it is crucial to recognize that many reports, including those in the field of environmental science, may not have the resources or support to conduct in-depth research, which can lead to less precise results. However, the report’s conclusion that “authentic, meaningful solutions are in order” is a strong statement that calls for proactive measures to address the issues raised.

The Town’s report has no short-term solutions, which concerns many of us, it barely touches on the current need to promote and manage STRs. The report seemed more reporting and reflecting on past data than in undertaking a thoughtful and data-driven effort to study this topic, which was neither data-driven nor objective. In fact, the report seemed more about capping and restricting the growth of Short-Term Rentals (STRs) than in promoting and managing STRs in Seabrook Island. This ordinance was the culmination of a process that was neither data-driven nor objective. In fact, the report seemed more about capping and restricting the growth of Short-Term Rentals (STRs) than in promoting and managing STRs in Seabrook Island.

In 2009, the couple relocated to Waco where the death of Sheridan’s father marked his beginning. He spent most of his days fishing and being his favorite recreational activity. His passion for fishing extended beyond personal enjoyment; he was known to promote and support fishing-related initiatives in his community.

"Why I Joined C.O.V.A.R." by Suwan Soden

C.O.V.A.R.

New Coordinators

Joanne Fagan

I moved to Seabrook Island from Massachusetts in March 2012, after a 25-year career in public education. One of my neighbors, Curt Gann, was instrumental in introducing me to C.O.V.A.R. the Council of Villas and Associations and Residents. After retiring in 2015, I started to attend C.O.V.A.R. meetings at the Lake House. When I became Coordinator, I was aware of the challenges and many issues that the organization was facing. I felt that the（continues）

Chemotherapy: Combating Cancer

Cancer is in common to us all. As the National Cancer Institute (NCI) explains, “Cancer is a group of diseases that form when cells divide out of control and spread within the body.” The good news is that each year, an estimated 1,800,000 new cases of cancer will be diagnosed and 600,000 people will die from the disease. The most common cancer types in South Carolina are melanoma (non-melanoma), lung cancer, prostate cancer, and breast cancer. As the number of cases continues to rise, there is a need for better treatments. This issue of “Eyes in the Sky” focuses on new developments in cancer research and treatment.

In the last decades, there have been significant advances in chemotherapy, a treatment that involves the use of drugs to slow, stop, or kill abnormal cells. Chemotherapy is used to treat a variety of cancers, including breast, lung, colorectal, and other types.

Chemotherapy works by targeting rapidly dividing cells, including cancer cells. It can also affect healthy cells, causing side effects. Common side effects include nausea, vomiting, hair loss, and fatigue. These effects can be managed with supportive care, such as medications or therapy.

While chemotherapy is effective in treating many types of cancer, it is not a cure for all cancers. It is important to discuss the potential benefits and risks of chemotherapy with your healthcare provider. Discussing the options available and choosing a treatment plan can help you make the best decision for your specific situation.

In summary, chemotherapy is a powerful tool in the fight against cancer. It can help extend life and improve quality of life for many patients. It is important to work closely with your healthcare team to determine the best treatment plan for your specific situation.

The Bottom Line
Chemotherapy is effective and is still being developed for cancer treatment.

The Nassau Board of Realtors Requested that AT&T ATTEND A MEETING TO PROPOSE A NEW SUBDIVISION TO DEVELOP A SMALL LOT TRACT IN THE AREA. THIS REQUEST WAS DISCUSSED AT THE OCTOBER 2021 TOWN MEETING. A RESIDENTS’ MEETING WAS HELD ON NOVEMBER 20, 2021, TO DISCUSS THE ISSUES FACING THE COMMUNITY TODAY. THIS MEETING WAS ATTENDED BY A LARGE GROUP OF INTERESTED RESIDENTS AND LEAD TO THE FORMATION OF A NEW ALLIANCE FOR COMMUNITY DEVELOPMENT (NASSAU BOARD OF REALTORS). THE ALLIANCE WAS FOUNDED WITH THE AIM OF PROTECTING THE INTERESTS OF THE RESIDENTS AND SUSTAINING THE COMMUNITY.

The Nassau Board of Realtors (NBR) is an organization that represents real estate professionals in the Nassau County area. It is a member of the National Association of Realtors (NAR) and the New York Association of Realtors (NYSAR). The NBR is committed to promoting the interests of its members and the real estate industry.

In this meeting, the residents expressed concerns about the potential impact of the new subdivision on the area. They discussed the need for better planning and oversight of development in the area. The NBR has a role in addressing these concerns and promoting responsible development.

The NBR has a Code of Ethics that its members are required to follow. This code includes provisions related to disclosure, fair representation, and confidentiality. The NBR has a complaint process for members who may violate these provisions.

The NBR also has a Standards Committee that reviews and enforces the Code of Ethics. The committee investigates complaints and determines whether disciplinary action is necessary.

In conclusion, the Nassau Board of Realtors is committed to promoting the interests of its members and the real estate industry. It is committed to addressing concerns about development and promoting responsible development. The NBR has a Code of Ethics and a complaint process for members who may violate these provisions. The NBR also has a Standards Committee that reviews and enforces the Code of Ethics.

In summary, the Nassau Board of Realtors is committed to promoting the interests of its members and the real estate industry. It is committed to addressing concerns about development and promoting responsible development. The NBR has a Code of Ethics and a complaint process for members who may violate these provisions. The NBR also has a Standards Committee that reviews and enforces the Code of Ethics.

Shrimp and Shrimping!

By Paul Tillman

When thinking about shrimp is easy to overlook the huge industry around shrimping. We read about catching shrimp as a function of our experience with cost-cutting tips from shrimpers or tricks from fishing on the shrimp boats. The actual shrimp catching industry takes place in the far reaches of the ocean, from the cold Arctic waters of Greenland to the hot and brackish marshes of the Lowcountry.

Although the shrimp industry is considered the second largest business in the United States, shrimp have always been a part of the Lowcountry diet. Shrimp have been one of the most common foods in the Lowcountry since the colonial period. The Lowcountry diet is so heavily influenced by the shrimp industry that it is difficult to separate the two.

The shrimp industry is fulled in and the trawl net full of prawns. The crew has to work fast to get dinner in one trip. A six-hour voyage is long enough for dinner in one trip. A six-hour voyage is long enough for the shrimping trip to be profitable.

When the trawls nets are full, the crew has to work fast to get dinner in one trip. A six-hour voyage is long enough for dinner in one trip. A six-hour voyage is long enough for the shrimping trip to be profitable.

When shrimping it is important to know the states of the shrimp and throw back the shrimp that you catch. When shrimping boats throw back the shrimp that you catch. When shrimping boats throw back the shrimp that you catch. When shrimping boats throw back the shrimp that you catch. When shrimping boats throw back the shrimp that you catch. When shrimping boats throw back the shrimp that you catch. When shrimping boats throw back the shrimp that you catch.

The Marsh Tacky, or Carolina Marsh Tacky, became South Carolina's official horse in 2010. The Marsh Tacky is a small breed of horse that is native to the Lowcountry. Marsh Tackies are known for their sure-footedness and their ability to adapt to new situations and challenging environments. They are known for their hardiness and their ability to thrive in a wide variety of conditions.
