Good afternoon,

The Department has reviewed the information submitted and conducted a site evaluation for the Equestrian Center Pasture disaster debris management site at the 2313 Seabrook Island Road, Johns Island SC location in Charleston County. The site has been preliminarily approved for the chipping of trees, limbs, and building materials during a disaster. Since the site has been pre-evaluated and preliminarily approved, you will need to request activation of the site when a disaster declaration is made. To activate the site in the event of a disaster declaration, send an email to debrismgmt@dhec.sc.gov requesting activation of the site along with the previously completed DHEC 2598 form signed by the requestor.

Please let me know if you have any questions.

Thanks,

Summer Justice
